

## Bank PHB

*9.600 square feet*

Bank PHB is a Nigerian bank. They required back of house office space, a full retail space to accept customers 'off the street' and a front of house facility for Client presentations and meetings.

Pacific met these requirements and provided a space that made reference to their African links within a modern contemporary context. The use of artwork was an important element and Pacific engaged Nigerian artists and coordinated their contributions; including designing complimentary bespoke rugs.
