

Fox Davies Capital Ltd

9,000 square foot

Fox-Davies Capital Limited (FDC) provides comprehensive and integrated corporate finance and institutional broking services to UK and international companies, specialising in the natural resources, related support services and industrials sectors.

FDC took 9000 sq ft in Tudor Street adjacent to Blackfriars. Works included meeting and Boardroom; dealing area for 40 dealers; various back up offices and departments, and an owner's suite. The suite consisted of a wet room, Gym, private office and meeting area.

Partitions were lavishly finished in polished red cherry, with full height doors, with oversize frames. Nickel ironmongery complimented the overall finish. Silk curtains and Italian ceramic floors set off the main reception and main meeting areas. The main reception desk is over 6m long and finished in a cream engraved top and sides. "Understated quality" was the request from FDC.
